

Full Circle Products

Dr. C's Full Circle Products

The three ways a product can be a full circle product

1. First a Dr. C's Full Circle Product has to be made from ingredients that have been produced and sourced from sustainable farms.
2. The second way for a product to be a Dr. C's Full Circle Product is that when it is used it will allow the gardener or farmer using the product to grow more sustainably or organically
3. The final way a product is considered Dr. C's Full Circle Product is that the product has to result in an economic and environmental benefit to the person using it as well as the people who are producing the ingredients used.

The best example of a full circle product is Dr. C's Soy Bean Meal Organic Fertilizer.

Dr. C's Soybean Meal Organic fertilizer is made from soybeans grown on sustainably on Northern Maine Farms

Using Dr. C's Soy Bean Meal Fertilizer allows farmers and gardeners to grow their crops, gardens and lawns more sustainably with less negative impact on the environment

And by using Dr. C's Soybean Meal fertilizer you are allowing farmers in Northern Maine to increase the number of acres grown sustainably because Dr. C is willing to pay more for the soybeans grown sustainably for this market making the farmer more money for doing the right thing.

Whenever possible use a full circle product

Dr. C's Full Circle product.

Dr. C's Full Circle Products are made from ingredients grown and processed on sustainable farms.

The purchase of a Full Circle Product **YOU** have made your own yard and garden safer place. You have also made a much larger area of the planet safer and more sustainable than just you backyard.

Full Circle Ingredients are grown naturally, sustainability and locally by **Real Farmers**. **Real Farmers** are producing these ingredients sustainably because **YOU** as responsible gardener are buying them as a value added product. This value is added very close to the farm gate, as a matter of fact, **Dr. C** is the only one between you and the **Real Farmers**. **Dr. C** adds value with no middle man. No middle man means the increase in value goes directly into the **Real Farmer's** pocket. Because the **Real Farmer** gets rewarded financially it allows her to grow in a way that most conventional growers are not able to afford.

With **YOUR** purchase of this **full circle** product **YOU** are making **YOUR** little corner of the planet a better place with less toxic fertilizers and pesticides. More importantly, with **YOUR** purchase of this **full circle** product **YOU** are helping to make acres and acres of the planet a better place with less synthetic fertilizers and pesticides. Using **Full Circle** products may appear to be a small step in individual sustainability but it is a giant leap in healing the planet.
